
Step 1

Add properly-mixed fuel
and oil (50:1 ratio)

Step 2

Add bar and chain oil

Step 3

Disengage the chain
brake before starting

WARNING: The saw chain will spin after the engine starts. Keep hands and feet clear of the saw chain and do not allow the saw chain to contact any object(s).

IMPORTANT:
Always clean the air filter
before each use.

Refer to the operator's manual for
complete instructions.
